**Q18** Your submission

Long Text

I would like the Review Panel to consider a warning system for residents who could potentially be impacted by flooding. I was aware of the high rainfall event and was watching the BOM app & VIC Emergency app expecting flooding warnings for the Maribymong River but did not receive any warnings or text messages until I woke at 3am to see water had already flooded up to our driveway and my next door neighbours garage was already flooded up to around 30cm.

Given the expected rainfall in the Mar bymong catchment it seems to me that this event was entirely predictable and residents should have been warned on the 13 October to move cars to higher ground where possible
