Long Text I would like the review to understand what type of Mitigation a Retard Basin will have on Floods in the future in Mar bymrong . I totally understand that this is not part of the scope in review although i am sure that a Weather Event caused the Reason for Flooding in [REDACTED] with a number of Rivers/ Stream etc from the Macedon Ranges flow and congregate at Keilor and enter the Maribymong River , together with High Tide caused the River to break it's banks and Flood the Maribymong Township . That's why it flooded therefore i would I ke to understand whether a Retarded Basin at Arundel would have saved homes from being flooded in Maribymong .
