The Rivervue Retirement Village site next to the Maribymong River:
In November 2015, Melbourne Water requested that Moonee Valley Council change flood planning rules covering a portion of the Rivervue Retirement Village site next to the Mar bymong River. Melbourne Water's amendment meant the one-in-100-year flood risk area moved closer to the river, leaving only a sliver of designated flood-prone land between the retirement village in Avondale Heights and the river.
I wonder if I could access a copy of this Technical report amending the one-in-100-year flood risk area.
