Multi Choice

**Q16** Do you own the property?

Multi Choice

**Q17** Do you intended to sell the property?

Multi Choice

**Q18** Your submission

Long Text

The flooding, although regrettable, was consistent with long terms flooding events along this river. Melbourne Water should be commended for the accuracy of their flood mapping, the LSIO & FO overlays in the relevant planning scheme and their longstanding policy to refuse proposals that increase density and risk within floodprone areas. Given this , it is not clear on the need for an inquiry other than the fact that the flooding happened just prior to an election and therefore it was a political decision. Likewise the VRC floodwall was a convenient target and again this was the subject of detailed analysis as part of its approval. it should be noted that the Edgewater development created significant increase in capacity to handle flooding events as well. MY only suggestions is that Vendors Statements and so on should provide clearer statements relating to flood risk - although i would say this would be opposed by landowners due to impact on property prices
